

West Yorkshire Combined Authority

Local Needs Analysis

March 2024 | Prepared by Social Value Portal for West Yorkshire Combined Authority

User Guidance

This report is based on the public datasets which are regularly updated within the Local Needs Dashboard. It is important to note that this Local Needs Analysis should not be viewed as an all-encompassing summary of the needs in an area. Instead, it provides information and insights about the area based on the selected data indicators included. This report should be used to inform decision-making around social value initiatives and activities that could be delivered by helping readers understand where the greatest impact can be made. It should also be used to inform discussions with local stakeholders who will be able to provide their own thoughts about the key needs and priorities locally.

The data indicators used in this Local Needs Analysis are selected on their basis to identify needs that align with the outcomes and measures in the National Social Value Measurement Framework (National TOMs) and to expand on IMD domains. This ensures that the recommendations arising from this report can be measured to evidence the social value they are creating.

Policy Review and Community Partners were last updated: March 2024.

Note for bidders:

Please use this report as a starting point for your bid submission. Your quantitative and qualitative responses should reflect an understanding of key findings and recommendations. Recommended measures and community partners have been signposted based on the priority needs of each local area. These are recommended measures, but not all inclusive. Additional measures and partnerships may be relevant to address these needs or better fit for purpose depending on the contract requirements.

When using the deprivation maps throughout the report, bidders should evidence an understanding of deprivation patterns within the relevant local area. For example, qualitative responses should demonstrate a targeted approach towards areas of high to severe deprivation within each Theme. Additionally, where health and crime measures are recommended, bidders should demonstrate an understanding of the specific contributing factors with the locality of the project.

Overview & Approach

1

1.0 Overview & Approach

The TOM System

This report includes content that is aligned to the National Social Value Measurement Framework also known as the National TOMs as it is built around a set of Themes Outcomes and Measures.

This will allow the analysis to inform social value targets and ensures the recommendations arising from this report can be measured to evidence the social value they are creating.

Why?

The first step in delivering a place-based social value strategy is to recognise the importance of local context.

The purpose of this report is to provide an understanding of the key needs and opportunities when it comes to delivering social value in the local area.

This will help to identify where the new development can make a real and long-lasting difference

How?

To achieve this, three exercises have been carried out and are summarised in this report:

1. A Policy Review: A comprehensive review of relevant policy documents.

2. A Deprivation Analysis: Quantitative and qualitative deprivation analysis of economic, social and environmental research and data to understand the key needs and opportunities to inform the delivery of social value.

3. An Overview of the Support Ecosystem: Including the identification of potential Local Community Partners to collaborate with to achieve lasting change. Please note, this list is not comprehensive.

Policy Review: Key Insights

A detailed policy review has been carried out and priorities and objectives have been aligned to the Themes of the TOMs. Key insights are detailed below and the full review can be viewed in the <u>Appendix</u>. The following page outlines TOMs alignment with the West Yorkshire Combined Authority Corporate Plan 2022-23.

Jobs Promoting local skills & employment	The Combined Authority outline a significant focus on improving skills throughout their policy documents with an ambitious commitment to create 35,700 net additional jobs in the region and to become a 'NEET-free' region by 2036. Across the policy documents, sustainable, inclusive growth was highlighted, with the transport industry playing a vital role in ensuring that growth in the region aids all those who live in WYCA. Inclusive growth should be achieved through increased levels of skill, good, well-paid jobs, and increased productivity. Future-proofing these jobs and skills is also imperative to the region.
Growth Supporting growth of responsible regional business	The Combined Authority aims to build an inclusive economy by boosting productivity and increasing economic output. The authority sights its economic expansion over the past 10 years with ambitious targets of creating £3.7 billion annual economic output by 2036. WYCA policies recognise the role of businesses in delivering good quality jobs for the diverse and varied communities around the authority. WYCA also acknowledges the need for good quality transport links to aid their plans for inclusive growth in the region.
Social Healthier, safer & more resilient communities	The Combined Authority highlights a need to improve wellbeing and quality of life as well as a need to address both physical and mental health issues. Health was consistently highlighted as a key indicator of improved quality of life with the positive impacts of physical activity and time outdoors prioritised. Digital inclusion was also highlighted as a key means of creating inclusive communities. A notable holistic view on building healthy and resilient communities was highlighted with positive relationships with work and environment being identified within WYCA policies. WYCA also identified the need for safe travel systems with differences in experiences of transport links and spaces being noted for people across age, race and gender markers.
Environment Decarbonising & safeguarding our world	The Combined Authority has set out an ambition to become Net Zero by 2038. To achieve this, they have set out an extensive program of works with transport at the forefront of the upcoming development. Alongside the creation of a nationally recognised, modern, sustainable transport network, supporting blue and green spaces to flourish and increasing efficiencies in industry and domestically are prioritised as means of delivering upon the authority's ambitious targets.

Policy Review

West Yorkshire Combined Authority Corporate Plan 2022 - 2023

Jobs	Growth	Social	Environment
Promoting local skills	Supporting growth of	Healthier, safer & more	Decarbonising & safeguarding
& employment	responsible regional business	resilient communities	our world
 Objective 7: Enabling a diverse, skilled workforce and accessible learning for all Ensuring that our learners have the skills, confidence and connections to reach their full potential. Facilitating access to a diverse, confident and capable workforce for the region's employers, to support strong and sustainable economic growth. Lead work with the Green Jobs Taskforce to produce a delivery plan for the creation of 1,000 green jobs and skills transition to net zero. Implement the Employment and Skills Framework, including a Digital Skills Plan. Deliver and commission the Adult Education Budget to achieve better outcomes for adult learners, and those seeking changes mid-career. 	 Objective 6: Driving economic growth and innovation to enable good jobs Supporting businesses to start up, scale up and invest in the region, in key sectors with growth and higher productivity potential. Promote resilience through leadership, innovation and digital transformation to drive sustainable economic growth and opportunities for all. Launch the £20 million Foresight West Yorkshire SME Investment Fund. Appoint a Mayoral Inclusivity Champion. Progress plans for a Fair Work Charter. Deliver innovation support projects for competitive advantage, innovation festival and Mayoral challenge competition. Deliver more business start-ups through entrepreneurship 	 Objective 1: Empowering our communities, towns and cities to thrive Enabling resilient, well-designed, healthy, accessible and connected communities with good quality homes, in places where people want to live. Enhancing the sustainable vitality of cities and towns, accelerating delivery of flood risk management and protecting businesses. This year we will: Work with partners to plan how we will continue to invest to achieve our 5,000 affordable sustainable homes target. Develop a West Yorkshire Housing Strategy. Strengthen our approach to equality, diversity and inclusion in this area, for example through the Dementia Ready Taskforce. Secure funding to accelerate delivery of digital infrastructure such as broadband. 	 Objective 2: Building a sustainable, nature rich and carbon neutral region Achieving net-zero carbon by 2038, promoting climate resilience and green recovery and ensuring that the transition to net zero carbon is fair and equitable. We are leading on this agenda, with our Mayor Tracy Brabin taking on the position of co-president of UK100 and plans to host the UK100 summit in July. This year we will: Deliver the early priorities of our Carbon and Environment Plan and build our longer-term plans into implementable projects to work towards our target of becoming net zero by 2030. Adopt our Carbon Impact Assessment tool to help ensure that all our investments contribute towards our net zero target.

Produce the West Yorkshire Nature Recovery Strategy and Action Plan to drive the nature recovery in West Yorkshire.

Objective 3: Creating an accessible, clean and customer focused transport system

Connecting communities, making it easier to get to work, do business and connect with each other. Reforming buses and creating a mass transit system to make the transport system easy to use so that sustainable travel becomes the natural choice. This year we will:

- Deliver our Bus Service Improvement Plan (BSIP) and progress bus reform to ensure communities are connected to opportunities and essential services.
- As part of BSIP, work in partnership with bus operators to create a simpler fare structure for West Yorkshire.
- Continue to develop our business case for a West Yorkshire mass transit system and form our new mass transit directorate.
- Make enhancements to the M Card app, roll out colourcoded network maps, and contactless capping on all buses.
- Publish our Rail Strategy to set out our future vision for rail in West Yorkshire and connect us nationally.
- Continue to deliver projects that benefit local communities through our Transport Fund and 'City Region Sustainable Transport Settlement'.

ladder of enterprise programme.

Objective 4: Supporting community safety and accountable, proactive policing Providing strong and transparent accountability of the police. Working with the police and partners to ensure

people and communities feel safe. Putting the safety of women and girls at the heart of the Police and Crime Plan. This year we will:

- Publish the strategies and performance indicators that underpin our Police and Crime Plan, setting out a clear path to 2024.
- Publish an evidence-based Violence Reduction Strategy.
- Work across the partnership to improve outcomes for victims and survivors of Domestic and Sexual Abuse and
- Violence, including criminal justice outcomes. Commission targeted services to improve community safety and support victims.

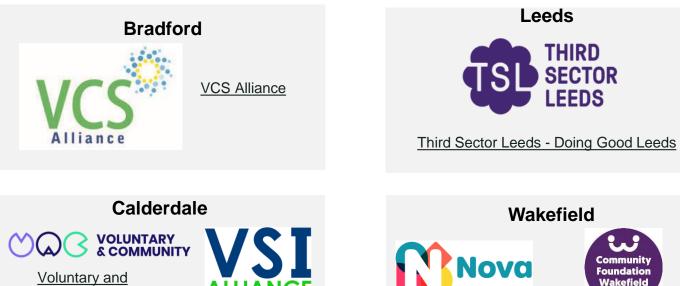

Objective 5: Championing culture, sport and creativity

Ensuring that everyone has access to participate in and experience cultural and sporting opportunities in the region. Putting culture and sport at the heart of the region's recovery and economic growth. This year we will:

- . Shape a pipeline of interventions for our Creative New Deal.
- Grow the Creative and Digital Sector through the Creative Digital Catalyst Programme.
- Work with partners to refresh the cultural framework to develop and prioritise the regional programme on culture, heritage and sport.
- Develop an approach to supporting festivals and events, including through 'years of culture' events across West Yorkshire.

Community Partners

Engaging local partners is an important step to delivering social value. Several recommended partners related to each Theme have been signposted in Appendix 2. However, this list is not comprehensive and the following organisations should be used as primary resources when approaching VCSEs in each locality.

Socialvalueportal.com

Local Demographics

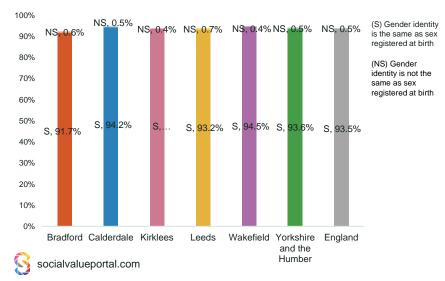

Disability Proportion by Authority

The percentage of individuals designated as disabled under the equality act for each authority in WYCA as per the 2021 census.

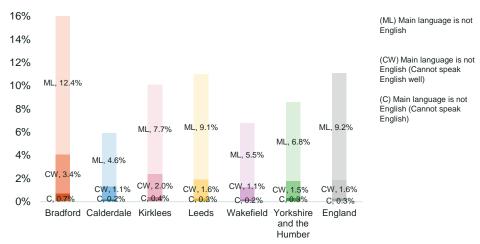

Gender Identity by Authority

Gender identity make up for those who's gender identity is not the same as the sex they were registered as at birth as per the 2021 census.

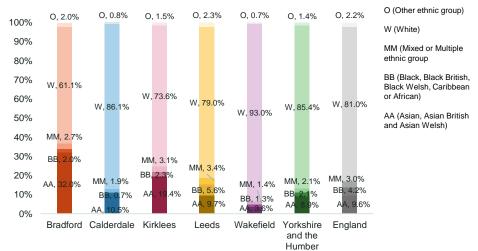

English Proficiency

The proportion of individuals who do not have English as their main language, who cannot speak English and who cannot speak English well as per the 2021 census.

Ethnic Minority Make Up by Authority

Proportional make up of Ethnic Groups across Bradford, Calderdale, Kirklees, Leeds, Wakefield as well as regionally and nationally as per the 2021 census.

Local Needs Analysis for West Yorkshire Combined Authority March 2024 | 12

Deprivation Analysis

3

3.0 Deprivation Analysis

What is IMD?

The Indices of Multiple Deprivation (IMD) are a measure of relative deprivation used to rank neighbourhoods across the UK. Deprivation is essentially defined as 'a lack of...' and the IMD allows for the identification of need, relative to the rest of the country.

How does it work?

IMD measures the deprivation in 32,844 Lower-layer Super Output Areas (LSOAs) in England. These areas have an average of 1,500 residents each. IMD analysis allows for the identification of levels of deprivation by ranking LSOAs from 1 (most deprived area) to 32,844 (least deprived area).

What does it measure?

IMD measures the overall deprivation on the basis of the following seven domains: Income; Employment; Education, Skills and Training; Health; Crime; Barriers to Housing and Services (not included in this report); and the Living Environment. These individual domains provide specific insight about what might be causing deprivation.

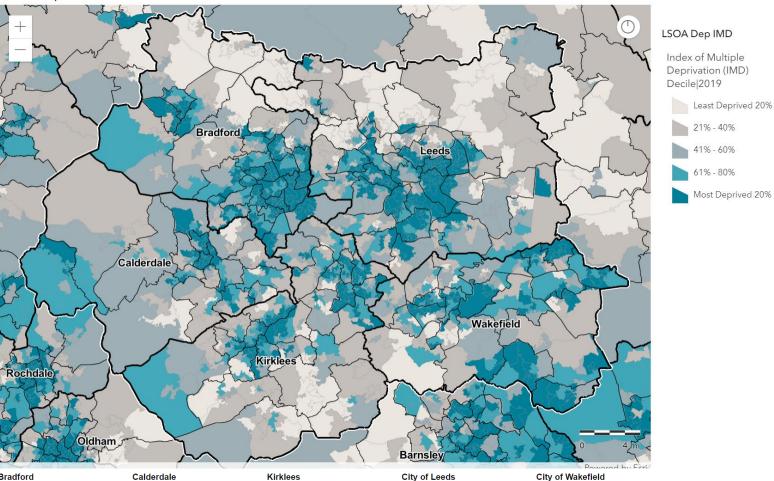

The IMD deprivation table shows the percentage of LSOAs experiencing high to severe deprivation in the Yorkshire and Humber region, West Yorkshire Combined Authority and the authorities of Bradford, Calderdale, Kirklees, City of Leeds and City of Wakefield.

Bradford performs worse than the WYCA deprivation rate in all indicators examined. All five authorities perform worse than the Yorkshire and Humber rate for Overall Deprivation and Crime Deprivation, with Income marginally performing better in Kirklees, but performing worse in Bradford, Calderdale, City of Leeds and City of Wakefield. Education Skills and Training Deprivation is higher in Bradford and the City of Wakefield compared to the Yorkshire and Humber regional average.

Proportion of LSOAs experiencing high to severe deprivation

% of LSOAs experiencing Severe Deprivation	Yorkshire and Humber	West Yorkshire Combined Authority	Bradford	Calderdale	Kirklees	City of Leeds	City of Wakefield
Overall	30.3%	35.8%	47.3%	31.0%	30.4%	33.7%	34.3%
Income	27.9%	31.4%	43.1%	28.7%	27.3%	28.8%	28.1%
Employment	29.9%	32.3%	45.0%	31.8%	27.3%	29.0%	37.1%

Jobs

Key Insights

Bradford

Unemployment rate deprivation is generally higher in Bradford in terms of proportion of LSOAs experiencing the highest levels of deprivation. This is highest in the southeast of the authority. Job density is 0.7:1, meaning that there is a shortfall of jobs per resident of 0.3:1. Claimant count (aged 16+) is higher than other local authorities at 6.6% and unemployment rate for people from ethnic minority backgrounds (aged 16+) is the higher than Yorkshire and The Humber average. Education deprivation is also proportionately higher which is underscored by the percentage of the population (16-64) with no qualifications GCSE/NVQs in Bradford.

Calderdale

Generally, employment indicators in Calderdale are on par with the regional average. Job density in Calderdale is 0.8, meaning there is a shortfall of jobs per resident of 0.2:1. Unemployment rate for people living with disabilities is slightly higher in Calderdale than the regional average. Percentage of the population with no qualifications GCSE/NVQs is slightly higher than the regional average. Comparatively, the percentage of economically active with trade apprenticeships is also slightly higher than the region. Percentage of offenders who reoffend is third highest in Calderdale.

Kirklees

The percentage of people aged 16-64 who are economically inactive in Kirklees is highest in the Combined Authority at 26.7%. Additionally, job density is 0.7:1, meaning that there is a shortfall of jobs per resident of 0.3:1. Unemployment rate for people living with disabilities is also highest in the combined authority at 9.8%. The percentage of the population with no qualifications GCSE/NVQs is also second highest in the Combined Authority and percentage of economically active with trade apprenticeships is second lowest.

City of Leeds

Within the City of Leeds, the wards of Middleton Park, Hunslet & Riverside, Gipton & Harehills, Burmantofts & Richmond Hill and Killingbeck & Seacroft experience (almost exclusively) deprivation within the highest quintile. Additionally, the number of 16-17 year olds not in education, employment or training (NEET) is highest in Leeds at 7.8%. Unemployment rate for people living with disabilities is second highest in the Combined Authority at 7.8%.

City of Wakefield

Percentage of people aged 16-64 who are economically inactive in Wakefield is second highest in the Combined Authority. Wakefield exhibits the highest percentage of offenders who re-offend at 29.2%. The proportion of education deprivation is generally high in Wakefield particularly in the centre including areas such as Normanton, Wakefield East, Wakefield West and Wakefield North. Despite this, the number of economically active with trade apprenticeships is significantly higher.

Deprivation in this quintile also spans to the East to areas surrounding Pontefract in wards such as Knottingley, Airedale and Ferry Fryston and Featherstone.

Growth

Key Insights

Bradford

Bradford has the highest proportion of micro businesses in the Combined Authority at 89%. Gross weekly pay is the second lowest in the Combined Authority, but specifically low for males comparatively. This relates to the high proportion of Income deprivation in Bradford. This may also relate to the high proportion of manufacturing businesses. Mental health indicators and low life satisfaction score is also generally high in Bradford.

Calderdale

88.6% of businesses are considered micro in Calderdale, with just 0.2% considered large, the lowest percentage in the Combined Authority. Gross weekly pay is £17 lower than the regional average. Income deprivation is concentrated in the wards of Park, Ovenden, Illingworth and Mixenden. Calderdale consistently has the lowest proportion of residential and commercial properties able to access internet connection speeds up to 1 GB per second.

Kirklees

Kirklees has the highest proportion of businesses in manufacturing compared to the other local authorities. The gender pay gap is most significant with £137 difference between male and female pay. The proportion of Income deprivation is not as high as other areas, however this is concentrated around wards such as Dalton, Ashbrow, Crosland Moor and Netherton.

City of Leeds

Leeds has the lowest proportion of micro businesses (0-9 people) but the highest proportion of small businesses (10-49 people) compared to other areas of the Combined Authority. Percentage of self-reported anxiety score is highest in Leeds at 24% of respondents. Gross weekly pay is highest in Leeds and the Internet User classifications map indicates a large proportion of e-Cultural Creators and e-Professionals.

Outcome: Reducing inequalities

Bradford

Income deprivation is generally high across Bradford with a concentration of generally varies with high deprivation deprivation in the highest quintile in the east around the City including wards such as Bowling and Barkerend, Bradford Moor, Little Horton and Manningham.

Calderdale

Income deprivation across Calderdale present in pockets around the authority. This is particularly high in areas surrounding Park and Ovenden as well as Illingworth and Mixenden.

Kirklees

Income deprivation in Kirklees is focussed in the south of the authority with areas such as Dalton, Ashbrow and Crosland Moor and Netherton exhibiting deprivation in the highest quintile.

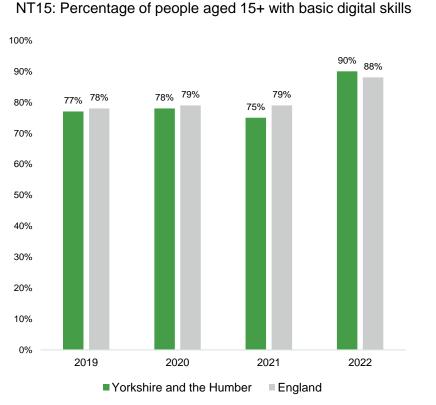

City of Leeds

High Income deprivation is prevalent across Leeds with expansive areas of high deprivation present across the authority, particularly in the east and southeast.

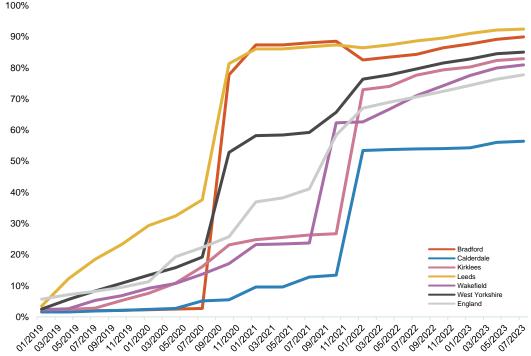

City of Wakefield

High Income deprivation in Wakefield is seen in the south of the authority with areas such as Hemsworth and South Elmsall and South Kirkby exhibiting deprivation in the highest quintile.

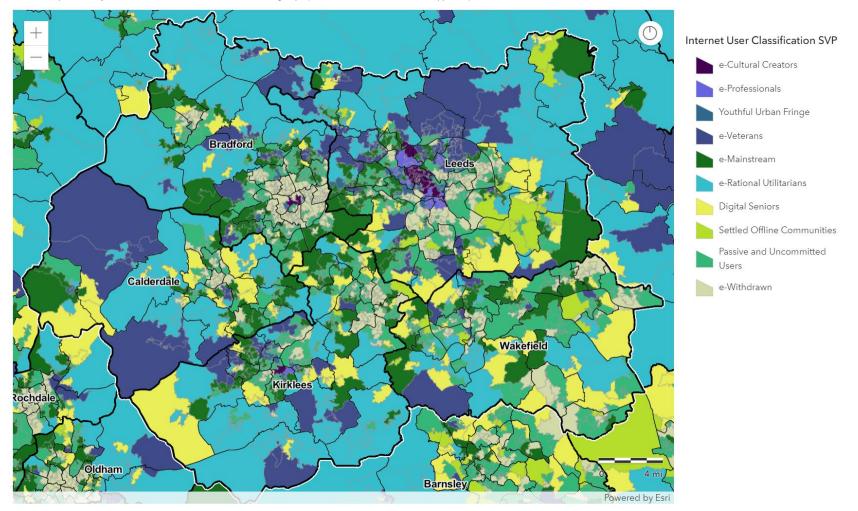

NT15: Proportion of residential and commercial properties able to access internet connection speeds up to 1 GB per second

Outcome: Reducing inequalities

Internet User Classification map

The map shows the classification of neighbourhoods in WYCA in terms of how they interact with the internet. The Consumer Data Research Centre (CDRC) have developed an Internet User Classification using data from the British Population Survey (BPS), which provides info on the behavioural characteristics of the population regarding various aspects of internet use, which could be linked with demographic data from the census and supplemented with data from online retailers, on online transactions and infrastructure data from OfCom on download speed. Every LSOA in the UK has been classified into 10 groups (summarised in the table on the Appendix).

NT27: Health Map

Health deprivation measures the risk of premature death and the impairment of quality of life through poor physical or mental health.

Bradford

Calderdale

Kirklees

Health deprivation is largely high within Sporadic distribution of higher levels of Bradford with a number of wards across the authority experiencing deprivation within the highest quintile. This includes southeastern wards surrounding the ward of City as well as some higher levels of deprivation seen in Keighley.

Health deprivation can be seen across Calderdale with Ovenden, Park and Illingworth and Mixenden being highlighted as areas with particularly large areas of deprivation, within the highest quintile. This is also the case for some areas in Rastrick and Elland.

High Health deprivation is clustered around the wards of Newsome, Golcar, Greenhead, Dalton and Ashbrow. Similarly, areas neighbouring Wakefield such as Dewsbury exhibit deprivation within the highest quintile.

Health deprivation in Leeds is exten-

City of Leeds

sive with a number of wards in the east and southeast experiencing deprivation in the highest quintile. Areas of particular note include Hunslet and Riverside, Burmantofts & Richmond Hill and Little London & Woodhouse as well as Beeston & Holbeck.

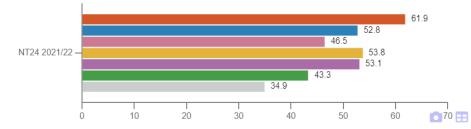

City of Wakefield

Health deprivation in Wakefield is highest in the north and south in areas around Hemsworth and Pontefract as well as Featherstone, Knottingley and Airedale and Ferry Fryston.

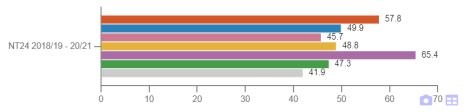

Outcome: Crime is reduced

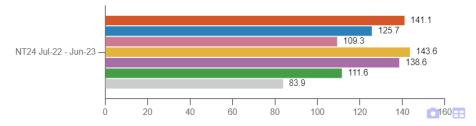

NT24: Violent crime - violence offences per 1,000 population

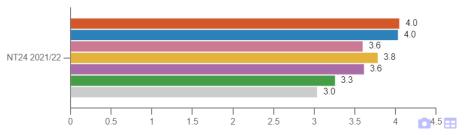

NT24: Violent crime - hospital admissions for violence (including sexual violence) per 100,000 population

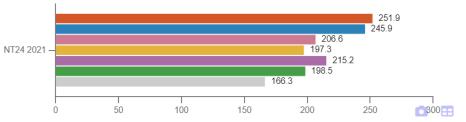

NT24: All crime rate (per 1000 population)

Outcome: Crime is reduced

Bradford

Calderdale

Crime deprivation in Bradford is extensive with deprivation in the highest quintile covering a majority of wards neighbouring the ward of City and towards the northwest and southeast.

While Calder and Ryburn experience lower levels of Crime deprivation, Calderdale's deprivation within this do-

wards surrounding Ovenden, Queensbury, Warley and Illingworth and Mixenden being identified as having particularly high Crime deprivation.

Kirklees

Crime deprivation in Kirklees spans north and south of Dewsbury with deprivation in the highest quintile present main is generally high with a number of in Batley, Birstall and Birkenshaw, Dewsbury, Ossett and Heckmondwike, amongst others.

City of Leeds

While severe Crime deprivation is present in Wetherby, the majority of deprivation within this domain is located in the southwest in areas such as Armley, Middleton Park, Bramley & Stanningley and Weetwood amongst others.

City of Wakefield

Crime deprivation in Wakefield is focussed in the north of the authority with Normanton, Wakefield East and Wakefield West as well as Featherstone and some areas in Pontefract.

Environment

Key Insights

Bradford

Calderdale

The proportion of households who are fuel poor is highest in Bradford at 19.2%. The proportion of Outdoor Living Environment deprivation is second highest in Bradford and is concentrated around City as well as Shipley and Windhill and Wrose. Residual household waste per household is second highest in Bradford.

Recommended Measures

NT32 Green transport programmes

NT69 Circular economy solutions for MSMEs and VCSEs

NT32 Green transport programmes

The average EPC rating below the recommended C rating is highest in Calderdale, particularly for buildings rated E, F and G. Proportion of households who are fuel poor is third highest in Calderdale. Outdoor Living Environment deprivation is relatively low across Calderdale and access to green space is relatively high. Average minimum journey time to key services is relatively high across Calderdale but specifically by walking or cycling.

NT69 Circular economy solutions for MSMEs and VCSEs

Kirklees Kirklees has the second highest percentage of buildings below the recommended C rating in terms of EPC rating. Fuel poverty is second highest. Average minimum journey time to key services is relatively high across Kirklees but specifically by public transport. Residual household waste per household is highest at 623.1kg/household.

Leeds has the second highest CO2 emissions per person at 4.3 tonnes. The proportion of Outdoor Living Environment deprivation is highest in Leeds with most severe pockets around the city centre. Average minimum journey time to reach key services is generally

NT32 Green transport programmes

NT31 Savings in CO2e through decarbonisation

City of Wakefield

City of Leeds

Total CO2 emissions per person is highest in Wakefield at 4.8 tonnes. EPC ratings are generally better in Wakefield compared to other areas as well as fuel poverty. The number of renewable electricity sites decreased between 2019 and 2020.

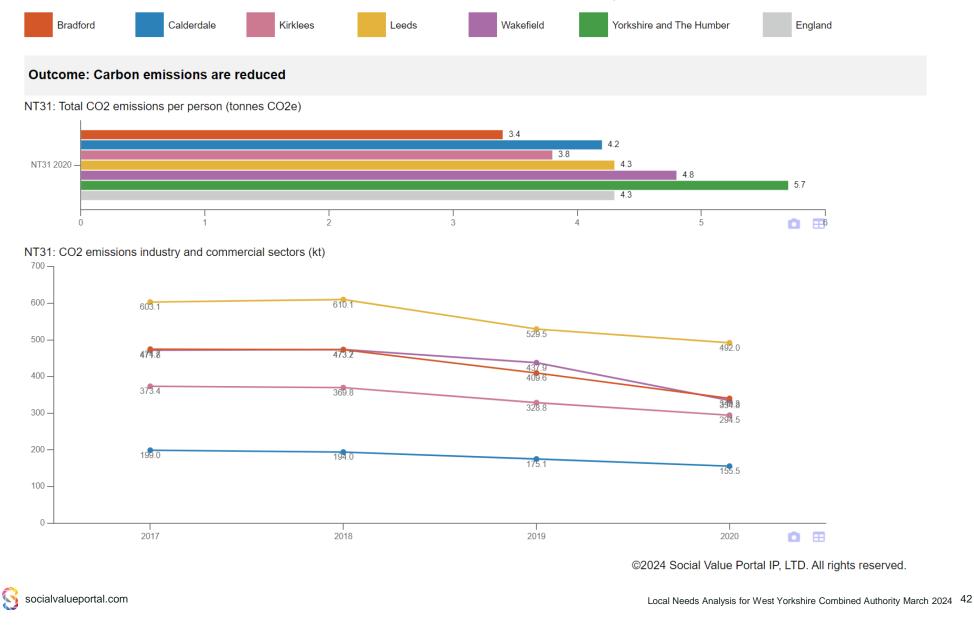

NT31 Savings in CO2e through decarbonisation

*Please note: sustainability requirements should be considered across projects. Measures listed highlight areas of priority need.

lower across Leeds. Areas of accessible green space is lower than other areas.

The following graphs show how Bradford, Calderdale, Kirklees, Leeds, Wakefield compares with the regional average across indicators related to Environment: Decarbonising & Safeguarding Our World. The relevant NT measure references have been included throughout. Each local authority within the Combined Authority has been included where data is available.

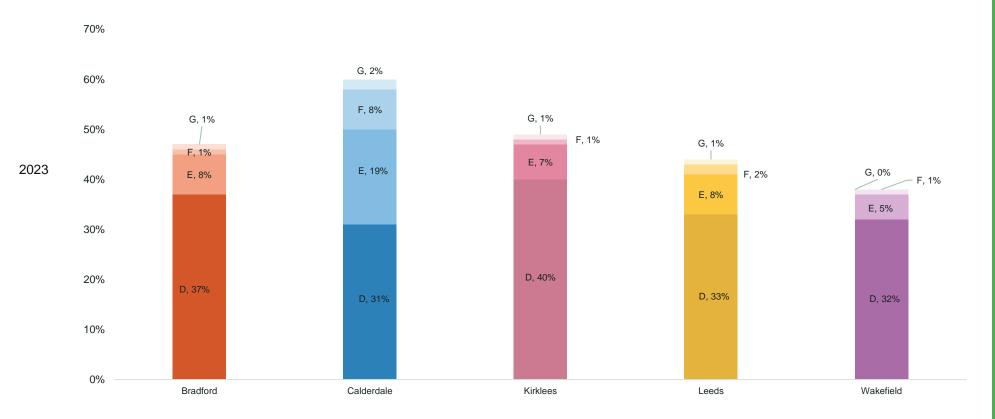

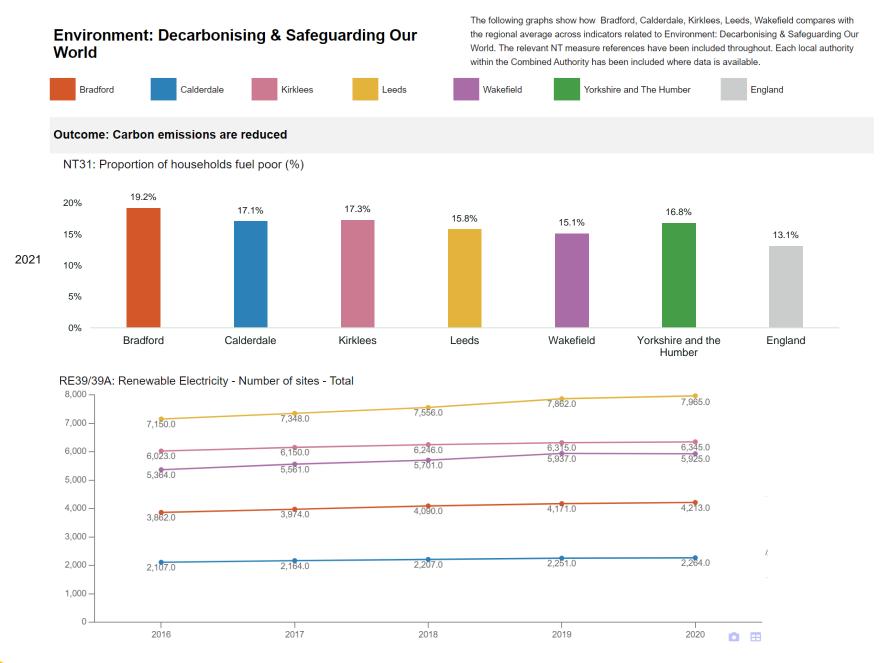

Outcome: Carbon emissions are reduced

An Energy Performance Certificate (EPC) is a guide to how energy efficient a property is. The EPC includes estimated energy costs and a rating (or band). The bands range from A to G, with A being the most energy efficient.

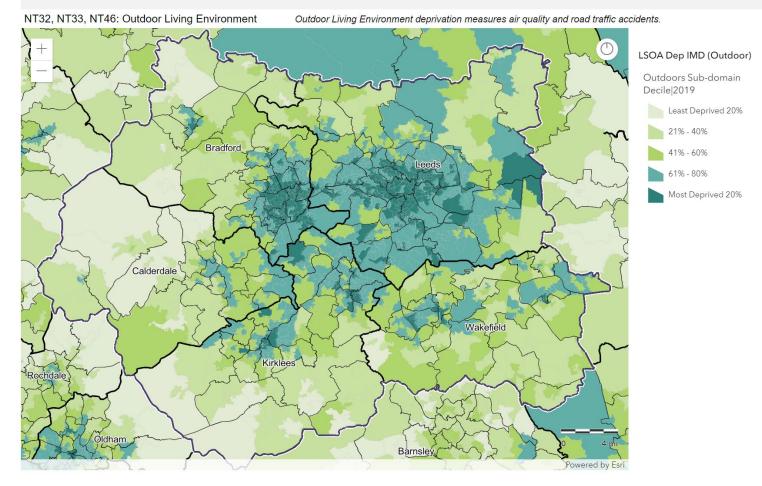

NT31: Percentage or Buildings with an EPC Rating below breakdown the recommended C rating

Outcome: Air pollution is reduced

Bradford

Outdoor Living Environment deprivation in Bradford is focussed around City, reducing in severity in the wider area. There are some higher levels of deprivation present in Shipley and Windhill and Wrose.

Calderdale

Outdoor Living Environment deprivation in Calderdate is the lowest within WYCA with some small areas of higher deprivation present in Town, Elland, Skircoat and Brighouse amongst others.

Kirklees

Outdoor Living Environment deprivation in Kirklees is generally low with hotspots of higher deprivation in Dewsbury and Dalton.

City of Leeds

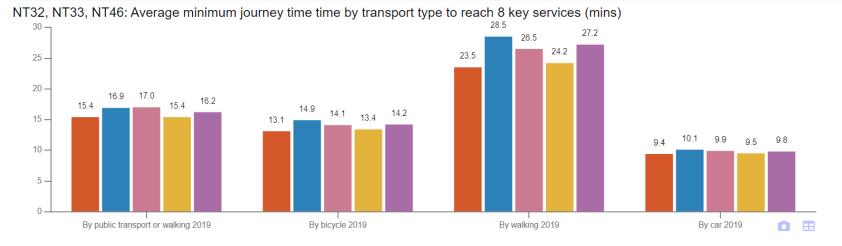

Outdoor Living Environment deprivation is high in Leeds, in particular around Little London & Woodhouse, Allerton, Armley, Beeston & Holbeck and Burmantofts & Richmond Hill.

City of Wakefield

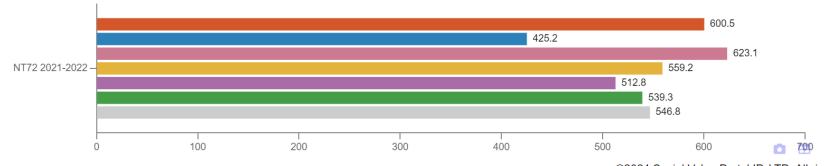

Outdoor Living Environment deprivation in Wakefield is generally low with some areas of higher deprivation present in Wakefield East, Wakefield South and Pontefract North.

Outcome: Air pollution is reduced

Outcome: Resource efficiency and circular economy solutions promoted

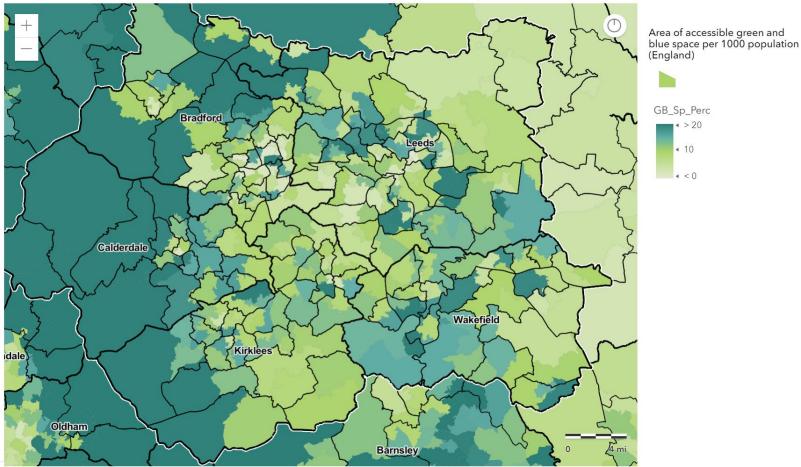

NT72: Residual household waste per household (kg/household)

Area of accessible green and blue space per 1000 population.

This map identifies area of accessible green/blue space (areas with greenery and/or inland water), as a percentage of the total area of the MSOA (Middle Layer Super Output Area) people have to opportunity to experience. This includes land that the public can directly access and land they are able to walk/cycle/etc. immediately adjacent to. The higher the percentage (or darker the green) the more accessible green/blue space in the MSOA.

Appendix 1 Policy Review

West Yorkshire Combined	6. Driving economic growth and innovation to enable good jobs
Authority Corporate Plan 2022 - 2023	Supporting businesses to start up, scale up and invest in the region, in key sectors with growth and higher productivity potential. Promote resilience through leadership, innovation, and digital transformation to drive sustainable economic growth and opportunities for all. This year we will:
	 Launch the £20 million Foresight West Yorkshire SME Investment Fund. Appoint a Mayoral Inclusivity Champion.
	 Progress plans for a Fair Work Charter.
	 Deliver innovation support projects for competitive advantage, innovation festival and Mayoral challenge competition.
	Deliver more business start-ups through the entrepreneurship ladder of enterprise programme.
	7. Enabling a diverse, skilled workforce and accessible learning for all
	Ensuring that our learners have the skills, confidence and connections to reach their full potential. Facilitating access to a diverse, confident and capable workforce for the region's employers, to support strong and sustainable economic growth. This year we will:
	 Lead work with the Green Jobs Taskforce to produce a delivery plan for the creation of 1,000 green jobs and skills transition to net zero. Implement the Employment and Skills Framework, including a Digital Skills Plan.
	 Deliver and commission the Adult Education Budget to achieve better outcomes for adult learners, and those seeking changes mid-career.
West Yorkshire Combined Authority State of the Region 2022	West Yorkshire's economic output fell during the pandemic but it is likely that it has largely recovered since then. Employment in West Yorkshire is on the rise, and the diversity of people in work is improving. The employment rate gaps for ethnicity and disability are narrowing.
	The labour force is becoming better qualified over time in West Yorkshire, although there is still ground to make up with the national average.
	Enabling a diverse, skilled workforce and accessible learning for all West Yorkshire's workforce is becoming more diverse. The employment rate gaps for people from ethnic minorities and for disabled people are narrowing over time, although the ethnic minority employment rate gap remains wider than nationally.
	Driving economic growth and innevation to anable good jobs
	Driving economic growth and innovation to enable good jobs West Yorkshire's economic growth rate, in terms of gross value added (GVA) has been slightly below the national average in recent years, even taking into account the slightly less severe impact of the pandemic on West Yorkshire's economic output levels in 2020 relative to the national benchmark. Performance on GVA per head reflects the above pattern.
West Yorkshire Combined Authority Investment	 Mission One: A prosperous West Yorkshire – an inclusive economy with well-paid jobs Mission Five: A safe West Yorkshire – a region where everyone can flourish.
<u>Strategy 2021 - 2024</u>	The investment priorities are framed across six investment areas and in each, several priority project /programme areas are identified that are the focus for intervention over the next three years. The priorities are multi-dimensional and may be applied in combination.
	Investment Priority 1: Good Jobs and Resilient Businesses (including entrepreneurialism)
	Investment Priority 2: Skills and training for people
	Investment Priority 3: Creating Great Places and Accelerated Infrastructure
	 Investment Priority 4: Tackling the Climate Emergency, and Environmental Sustainability Investment Priority 5: Delivering Sustainable, Integrated, Inclusive and Affordable Transport
	 Investment Priority 5. Derivering Sustainable, Integrated, Inclusive and Anordable Transport Investment Priority 6: Creative Industries, Culture, Heritage and Sport

West Yorkshire Combined Authority Connectivity Infrastructure Plan January 2021	New urban transport infrastructure to distribute the benefits of High-Speed Rail (HS2) and Northern Powerhouse Rail (NPR) cannot drive inclusive, sustainable growth alone; a range of factors are essential to creating a coordinated programme of activity aiming to create more and better jobs, with a highly skilled workforce to sustain them.
West Yorkshire Combined Authority Mass Transit 2040 Vision – August 2022	 Boost productivity Helping businesses to grow and invest in the region and their workforce, to drive economic growth, increase innovation and create jobs. West Yorkshire's productivity is lower than the rest of the country. We need the economy to grow. We need to share better the benefits of growth. Connect West Yorkshire's important places Help people travel to jobs and education in a reliable, efficient and affordable way. Increase the job and training opportunities people can easily get to. West Yorkshire's population and the number of people working is forecast to grow. More people means more travel. We need new housing and new places for people to work. Support economic recovery. Improve connections between areas of housing growth and employment, education, health and leisure opportunities. Improve connections to new employment sites.
West Yorkshire Combined Authority Employment and Skills Framework	 WYCA aims to create an authority where: There are no barriers to people taking up, progressing and succeeding in learning and work, and where they are supported into good employment. Individuals value lifelong learning and are able to make decisions about their development, Informed by quality, relevant careers information based on the reality on the ground. Great education connected to business: Apprenticeships represent a key opportunity to address our City Region's specific skills gaps, particularly in the digital and health sectors with further opportunities in the growing green economy. The recent apprenticeship reforms have sharpened employer appetite, and in Leeds City Region we have developed a range of support services with our partners to match demand and supply issues and increase uptake. The introduction of T-levels, the national skills find with its addult entitlement to level 3 qualifications that are 'valued by employers', and adult skills provision that offers short yet focussed unaccredited training will all be important to complement the Adult Education Budget Strategy. What more could be done?: Produce high quality careers materials based on local labour market information for individuals of all ages and for practitioners and organisations that support them. Raise aspirations amongst Early Years and primary school aged pupils and deliver activities to counteract early stereotypes and reinforce messages throughout school journey. Target interventions designed to engage a more diverse audience than those who traditionally engage with careers education and support personal ambitions. Extend the Careers Hub model Create a high-quality careers infrastructure and network that supports key transition points for individuals of all ages in learning and work. Support more businesses to take up technical placement opportunities including apprenticeships, traineeships and T-levels placements <

- vvork with levy-paying organisations to highlight the benefits of levy transfer within West Yorkshire.
 Support more businesses to offer apprenticeships, traineeships, internships and work placements.
- Ensure that a full range of apprenticeship opportunities are available to support inclusion, in terms of the disadvantaged, young people and people with lower-level skills.

West Yorkshire Combined Authority Bus Service Improvement Plan 2022	 The West Yorkshire Transport Strategy 2040 outlines how the Combined Authority plans to deliver on its vision for a globally-recognised economy, where good growth delivers high levels of prosperity, jobs and quality of life for everyone, fundament to which is 'a modern, world-class, well-connected transport system that makes travel around West Yorkshire easy and reliable. Improving access to public transport and improving integration between transport modes can also help to support wider access to jobs, education, training and services, particularly for first and last mile connectivity. Reduced fares and travel offers will also be used to promote bus use and sustain-able travel behaviours by particular groups who are either particularly dependent or excluded by bus travel. Under 19s - reduced pre purchase and pay on bus fares. 19 to 25 year olds - reduced pre purchase fares. Targeted groups e.g. jobseekers, apprentices etc - reduced pre purchase. Older and Disabled People eligible for statutory concessionary fares – free with interns of Concessionary Fare Schemea review will be undertaken to understand how this can be extended to pre-9.30
West Yorkshire Combined Authority Procurement Strategy 2020 - 2025	 10% weighting for Social Value has been applied to all procurements > £75,000 as a minimum. Social Value is an umbrella term for the broader economic, social and environmental effects of any businesses' actions. They represent the conscious efforts made by organisations to affect positive change. These actions and changes contribute to the long-term wellbeing and resilience of individuals, communities, and society in general. The Combined Authority expects our suppliers and providers to support our aims and objectives, be supportive of the mayoral pledges and commitments to improving the communities we live in. We expect our contracted partners to work to ensure they embody best practice through reducing gender pay inequalities, through fair employment practices and in the adoption of sustainable, ethically sourced products, goods and services and in supporting their suppliers to do the same.
West Yorkshire Combined Authority Climate and Environment Action Plan	Delivering a fair, just and lasting recovery will ensure the region takes advantage from the transition to a sustainable and net zero carbon economy, boosting good jobs, training and upskilling opportunities across West Yorkshire. The construction industry, manufacturing, and transport, are the sectors where most focus is needed both to seize the employment boost of a sustainable and net zero economy and in terms of skills and retraining (LSE, University of Leeds, 2019, 2020). Across West Yorkshire, 235,000 jobs could be affected by the transition to a net-zero carbon economy , with around 119,000 workers in high demand because of their skills and experience , and 116,000 workers requiring upskilling and support . However, 828,000 jobs will not be significantly affected by the transition (LSE, University of Leeds, 2019)
West Yorkshire Combined Authority City Region Sustainable Transport Settlement	Our vision is not just about investing in more of the same, it is about making transport more accessible and more inclusive. Everyone in our region has something to give and we need to make sure people can access jobs, education and training opportunities, therefore enabling them to increase their skills and earn good incomes. Mass transit development and initial delivery programme Our Mayor has committed to begin delivery of the first phase of our mass transit network by the end of this funding settlement. Mass transit is a national infrastructure priority. Our plans for mass transit are set in the context of the Mass Transit vision 2040, and integrate with the schemes in our lower funding scenario. It is vital to delivering the transformational change we need. Delivery of the first phase of the mass transit network will connect Leeds, Bradford, Dewsbury, Batley, Heckmondwike and east Leeds. This is integral to our plan to connect some of our most disadvantaged communities to major centres of employment and to provide a new backbone to our regional transport network. This will create significant additional sustainable transport capacity for the region helping to build the confidence business need to invest in the region and our workforce, to create innovation, and to drive economic growth.

<u>Leeds City Region</u> <u>Strategic Economic Plan</u> <u>2016-2036</u>	 "To be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone". In achieving this, the City Region will: •deliver upwards of 35,000 additional jobs and an additional £3.7 billion of annual economic output by 2036. •seek to exceed the national average on high-level skills and to become a NEET (not in employment, education, or training)-free City Region; and •make good progress on Headline Indicators of growth and productivity, employment, earnings, skills, and environmental sustainability. Skilled People, Better Jobs 1.More and better apprenticeships 2.Great education, connected to business 3.Employability, access to jobs and realising potential 4.Building workforce skills and shortages Key Priorities: 35,700 net additional jobs by 2036. Ambitions to exceed the national average on high-level skills and to become a 'neet-free' city region.
Leeds City Region Inclusive Growth Framework	The widely recognised RSA definition of inclusive growth is applied throughout: Enabling as many people as possible to contribute to, and benefit from, economic growth. This definition of inclusive growth embeds the following key perspectives: •of individuals that face barriers to securing good work, including those with protected characteristics (see below); and •of our communities facing deprivation, inequality, and exclusion, as defined by either specific places, or groups through their shared interests, or collective identities Goal 2: Connectivity & Accessibility 1. Hard to fill vacancies 2. Proportion of jobs accessible by bus within 30 minutes 3. Access to internet and ICT (basic digital skills, broadband coverage) 4. Air quality (poor air quality indicates low active travel/ public transport use/ high car usage) 5. Number of households in transport poverty Goal 3: Transferable & Relevant Skills 1. Working age population without any qualifications 2. Economic activity rate 3. NEET rate 4. Social mobility - Attainment at KS4 by FSM eligibility and access to HE by social status 5. Employers engaging with schools
<u>Leeds City Region Green</u> <u>and Blue Infrastructure</u> <u>Plan</u>	Our region's green and blue spaces and waterways are among its defining characteristics. This strategy and delivery plan sets out how we will make the most of the region's amazing natural assets to help our economy prosper, enable people to enjoy a great quality of life, and combat the effects of climate change. Our vision We want to ensure that everyone in Leeds City Region has easy access to a high-quality, safe and well used network of footpaths, cycleways, green spaces, waterways and wildlife habitats. This "green and blue infrastructure" will contribute towards a strong economy, a sustainable environment and outstanding quality of life. It is also part of our ultimate goal of making Leeds City Region a zero carbon economy underpinned by high quality green and blue infrastructure. Our priorities To achieve our ambitions we will focus on seven priority action areas: 7.Business growth, jobs, skills and education – demonstrating the economic benefits of investing in green and blue infrastructure and developing skills and job opportunities in green occupations such as land management, agriculture, forestry, parks and gardens

West Yorkshire Combined Authority Corporate Plan 2022 - 2023	 Creating an accessible, clean and customer focused transport system. Connecting communities, making it easier to get to work, do business and connect with each other. Reforming buses and creating a mass transit system to make the transport system easy to use so that sustainable travel becomes the natural choice. This year we will: Deliver our Bus Service Improvement Plan (BSIP) and progress bus reform to ensure communities are connected to opportunities and essential services. As part of BSIP, work in partnership with bus operators to create a simpler fare structure for West Yorkshire. Continue to develop our business case for a West Yorkshire mass transit system and form our new mass transit directorate. Make enhancements to the M Card app, roll out colour-coded network maps, and contactless capping on all buses.
	Publish our Rail Strategy to set out our future vision for rail in West Yorkshire and connect us nationally. Continue to deliver projects that benefit local communities through our Transport Fund and 'City Region Sustainable Transport Settlement'.
West Yorkshire Combined Authority State of the Region 2022	 West Yorkshire's economic output fell during the pandemic but it is likely that it has largely recovered since then. Productivity is on the increase, but there remains a gap between the output per hour worked in West Yorkshire and nationally. West Yorkshire's digital infrastructure is a key strength. The area outperforms the national average on key measures relating to gigabit-capable and mobile 4G coverage. A key objective of levelling-up is to reduce disparities in household income. Gross disposable household income in West Yorkshire is 79% of the national average and the gap is steadily widening over time. This demonstrates the need to increase productivity in the region. Driving economic growth and innovation to enable good jobs West Yorkshire's economic growth rate, in terms of gross value added (GVA) has been slightly below the national average in recent years, even taking into account the slightly less severe impact of the pandemic on West Yorkshire's economic output levels in 2020 relative to the national benchmark. Performance on GVA per head reflects the above pattern.
<u>West Yorkshire</u> <u>Combined</u> <u>Authority Investment</u> <u>Strategy 2021 – 2024</u>	 Mission One: A prosperous West Yorkshire – an inclusive economy with well-paid Jobs Mission Two: A happy West Yorkshire – great places and healthy communities Mission Three: A well-connected West Yorkshire - a strong transport system West Yorkshire is key to re-balancing the national economy and enabling the North of England to 'level up' and contribute fully to, and benefit from, national economic growth. Located at the heart of the Northern Powerhouse, with an economy larger than that of several European countries, all our cities and towns have distinctive strengths built from their communities, heritage, character, industries and cultural assets. The unique mix of places, people, and businesses within the region, are vital to our long-term success. Inclusive Growth All our investments need to respond to and benefit the people of West Yorkshire and have impacts on people and communities, at their heart. Consequently, Inclusive Growth is at the heart of the investment strategy given its importance to the economy. Our proposed measures of success will be critical in demonstrating what impact our investments have had. And the fulfilment of these goals is central to the achievement of our related Inclusive Growth ambitions, such that. All individuals and communities in West Yorkshire are enabled to contribute to - and benefit from - our economic prosperity because: they are inspired, confident and engaged. All West Yorkshire employers provide fair work because: they value diversity (at all levels), promote employee wellbeing, invest in their workforce; and West Yorkshire is a region which delivers an inclusive economic recovery because every person - and every community - matters equally, economic and social disparities are not just reduced but eliminated, and diversity - including of our people and communities - is a key strength of the region.

West Yorkshire Combined Authority Connectivity Infrastructure Plan January 2021	A modern, integrated transport system is essential for an economy to flourish and communities to thrive. West Yorkshire is a significant and growing economy. A modern, integrated transport system is essential for an economy to flourish and communities to thrive. West Yorkshire is a significant and growing economy. Connecting Everyone – Inclusive growth and the productivity gap. We believe that all of our residents can contribute to and should benefit from economic growth. The potential uplift in productivity from an inclusive economy is crucial to securing a prosperous future. Our cities and large towns can offer a range of employment opportunities and a wide pool of skilled workers. Unfortunately, not all our communities benefit from these opportunities. Our evidence shows that within West Yorkshire the levels and the spatial patterns of deprivation have not changed between 2004 and 2019. Areas of persistent deprivation have not improved. Income has an important influence on deprivation levels. The availability and costs of transport can be a significant barrier to work for residents in low-income neighbourhoods. We also know that travelling by public transport can be especially hard for those that have disabilities yet is crucial to so many people's independence and ability to work. Tackling deprivation requires good jobs, accessible to all.
West Yorkshire Combined Authority Mass Transit 2040 Vision – August 2022	 Enable Inclusive Growth Enabling as many people as possible to contribute to, and benefit from, economic growth in our communities, towns and cities. Transport needs to add to people's quality of life, not detract from it. Traffic noise and congestion affect day-to-day lives. Traffic blights local communities. Improve health and wellbeing. Make travelling around West Yorkshire a more pleasant experience. Support improved public realm. Provide an attractive alternative to car travel. Poor transport limits what people can do: Support levelling up and help rebalance the economy. Reduce transport barriers which limit travel horizons and so increase access to employment, education, health, leisure and other services. Improve connections to local and district centres. Be fully accessible to all. Support redevelopment and regeneration.
West Yorkshire Combined Authority Employment and Skills Framework	 Employers recognise the value of a diverse workforce and invest in their talent to develop the skills that will improve productivity and support progression in the workplace. World-class teaching and training provides flexible learning opportunities that align to the strategic needs of the local economy. Accessing and progressing in good work. While unemployment remained relatively low pre-pandemic, it began to escalate quickly during the early stages of the crisis and the overall pattern is changeable. Those that fall out of the labour market often find it difficult to re-connect. Even before unemployment began to rise, too many people were already locked in low-skilled, low paid work. What more could be done? Ensure that the UK Community Renewal Fund and Single Prosperity Fund succeed the ESF funded unemployed and NEET reduction programmes, with increased flexibility. Work with Restart providers to ensure engagement with all communities and complementarity across provision. Coordinate activities of key stakeholders (e.g. unions, the National Careers Service (NCS), recruitment agencies, etc.) to ensure adults access locally relevant careers and employment advice and support. Work with NHS key strategic organisations to support regional workforce strategies Use the AEB to equip individuals with the confidence needed to launch their careers through community learning. Support delivery of level 3 qualifications needed by the local labour market.

West Yorkshire Combined Authority Bus Service Improvement Plan 2022	 To support our vision for West Yorkshire, the Bus Service Improvement Plan must: Be inclusive of all groups in society. Support inclusive growth and social well-being ambitions of West Yorkshire. Contribute to improved economic productivity in West Yorkshire. Provide cleaner, greener buses supporting sustainable travel and contributing to the environmental targets of West Yorkshire. Be as competitive as possible against private car use in urban areas.
West Yorkshire Combined Authority City Region Sustainable Transport Settlement	A modern, integrated transport system is essential for our economy to flourish and our communities to thrive. To fulfil its full potential, as both a major player in the Northern Powerhouse and in the levelling up of the UK economy, West Yorkshire needs to transform its transport system to one that is fit for the 21st century and for a decarbonised, fairer, more inclusive economy. There is a need to improve transport connectivity to enable people to easily access jobs and training opportunities more sustainably. With more than 90,000 businesses, we are the largest regional finance centre outside of London, have more manufacturing jobs than anywhere else in the North and we are home to the fastest-growing digital sector in the UK, with employment growing six times faster than in London since 2015. While employment has seen growth in recent years, our region is below the national average on key indicators such as productivity, earnings and labour market participation. The West Yorkshire economy was slower to enter recovery from the crash of 2008 than some comparator areas, in part due to our transport infrastructure lagging behind our neighbouring regions. Growth and Productivity Faster bus journeys and better satisfaction amongst passengers, through bus priority measures, including an estimated 40 kilometres of new bus lane and better bus stops and stations, compared to the current situation. Greater levels of productivity in the region to above the UK average through an improved public transport system including mass transit. Better access by bus to workplaces and job opportunities contributing to the creation of 1,000 well-paid, skilled jobs for young people by 2026.
West Yorkshire Combined Authority Procurement Strategy 2020 - 2025	 10% weighting for Social Value has been applied to all procurements > £75,000 as a minimum. Social Value is an umbrella term for the broader economic, social and environmental effects of any businesses' actions. They represent the conscious efforts made by organisations to affect positive change. These actions and changes contribute to the long-term wellbeing and resilience of individuals, communities, and society in general. The Combined Authority expects our suppliers and providers to support our aims and objectives, be supportive of the mayoral pledges and commitments to improving the communities we live in. We expect our contracted partners to work to ensure they embody best practice through reducing gender pay inequalities, through fair employment practices and in the adoption of sustainable, ethically sourced products, goods and services and in supporting their suppliers to do the same. Organisational Priorities: Boosting productivity Enabling inclusive growth Delivering 21st Century transport Supporting clean growth
West Yorkshire Combined Authority Climate and Environment Action Plan	The mayor and West Yorkshire Combined Authority ('Combined Authority') will ensure the West Yorkshire Climate and Environment Plan ('Plan') and transition to a net zero carbon economy is fair, just and reduces inequality in West Yorkshire. It cannot be the cause of further inequality for our most excluded and deprived groups and communities. Inclusive growth, equality and diversity goals and outcomes will be delivered through this Plan. In helping to deliver this Plan West Yorkshire Councils will: Continue to invest in sustainable development, clean growth and community regeneration and resilience. In helping to deliver this Plan businesses could: Work with their local authorities and supply chains to explore options to alter business models, products, services or operations to unlock value, contribute to sustainable development and clean growth.

Policy Review

Growth

Leeds City Region Strategic Economic Plan 2016-2036	 "To be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone". •become a positive, above-average contributor to the UK economy. •make good progress on Headline Indicators of growth and productivity, employment, earnings, skills, and environmental sustainability. Growing Business: Business Growth Hub (LEP Growth Service) Innovation Access to finance Digital Supply chain development Entrprise 7.Trade and investment Infrastructure for Growth: a) Integrated spatial priority areas: Urban Growth Areas Employment Growth Areas Employment Growth Areas Inal Transport infrastructure and services c) Integrated flood risk reduction 3.d) Digital infrastructure
Leeds City Region Inclusive Growth Framework	The widely recognised RSA definition of inclusive growth is applied throughout: Enabling as many people as possible to contribute to, and benefit from, economic growth. This definition of inclusive growth embeds the following key perspectives: •of individuals that face barriers to securing good work, including those with protected characteristics (see below); and •of our communities facing deprivation, inequality, and exclusion, as defined by either specific places, or groups through their shared interests, or collective identities, Goal 1: Wellbeing 1.Years of Healthy Life 2.Personal wellbeing 3.Early years development 4.Number of days lost to sickness 5.Number of households in fuel poverty 6.Physical activity levels (>30 minutes per week) Goal 4: Good Work 1.% Employees in Good Work 2.Pay ratios (CEO/director to median employee) 3.Pay gaps (gender, etc) 4.Workforce diversity (at all levels) 5.% employers providing flexible working – eg incidence of home-based working

<u>Leeds City Region Green</u> <u>and Blue Infrastructure</u> <u>Plan</u>	Our region's green and blue spaces and waterways are among its defining characteristics. This strategy and delivery plan sets out how we will make the most of the region's amazing natural assets to help our economy prosper, enable people to enjoy a great quality of life, and combat the effects of climate change. Our vision We want to ensure that everyone in Leeds City Region has easy access to a high-quality, safe and well used network of footpaths, cycleways, green spaces, waterways and wildlife habitats. This "green and blue infrastructure" will contribute towards a strong economy, a sustainable environment and outstanding quality of life. It is also part of our ultimate goal of making Leeds City Region a zero carbon economy underpinned by high quality green and blue infrastructure. Our priorities To achieve our ambitions we will focus on seven priority action areas: 7.Business growth, jobs, skills and education – demonstrating the economic benefits of investing in green and blue infrastructure and developing skills and job opportunities in green occupations such as land management, agriculture, forestry, parks and gardens.
---	---

<u>West Yorkshire Combined</u> <u>Authority Corporate Plan 2022 -</u> 2023	 4.Supporting community safety and accountable, proactive policing. Providing strong and transparent accountability of the police. Working with the police and partners to ensure people and communities feel safe. Putting the safety of women and girls at the heart of the Police and Crime Plan. This year we will: Publish the strategies and performance indicators that underpin our Police and Crime Plan, setting out a clear path to 2024. Publish an evidence-based Violence Reduction Strategy. Work across the partnership to improve outcomes for victims and survivors of Domestic and Sexual Abuse and Violence, including criminal justice outcomes. Commission targeted services to improve community safety and support victims. 5.Championing culture, sport and creativity. Ensuring that everyone has access to participate in and experience cultural and sporting opportunities in the region. Putting culture and sport at the heart of the region's recovery and economic growth. This year we will: Shape a pipeline of interventions for our Creative New Deal. Grow the Creative and Digital Sector through the Creative Digital Catalyst Programme. Work with partners to refresh the cultural framework to develop and prioritise the regional programme on culture, heritage, and sport. Develop an approach to supporting festivals and events, including through 'years of culture' events across West Yorkshire.
West Yorkshire Combined Authority State of the Region 2022	The coronavirus has had a significant impact on key policing indicators in West Yorkshire. Neighbourhood crime, knife crime and the number of persons reported as missing remain below pre-pandemic levels. Empowering our communities, towns and cities to thrive Healthy life expectancy (an important measure of socio-economic as well as health inequality) in West Yorkshire is below the national average for both males and females. According to the latest data overall life expectancy for males fell during the 2018-20 period as a result of the pandemic. There is also inequality of overall life expectancy within West Yorkshire, between the most deprived and least deprived areas. Championing culture, sport and creativity Employment in the culture, sport and creative sector in West Yorkshire is a substantial part of the West Yorkshire economy, accounting for 15% of all employment. It is smaller than nationally in proportionate terms, although it is strongly represented in Leeds. Culture, sport and creative activities were exposed to the coronavirus restrictions, resulting in a fall in employment in 2020. There was also a decline in employment for these activities at national level in 2020. Supporting community safety and accountable, proactive policing The coronavirus has had a significant impact on key policing indicators in West Yorkshire. Neighbourhood crime, knife crime and the number of persons reported as missing remain below pre-pandemic levels.
West Yorkshire Combined Authority Investment Strategy 2021 - 2024	 Mission Five: A safe West Yorkshire – a region where everyone can flourish. Tackling inequalities and determinants of health The West Yorkshire Combined Authority's vision is to be a leader recognised nationally for our focus and commitment to equity, diversity, and inclusion. Working together for an inclusive West Yorkshire is critical to achieving the vision and addressing the inequalities people and communities experience in the region and wider. We know that around 80% of the things that generate and sustain good health are things outside of healthcare. As well as individual factors, social determinants have a strong influence on the health of the population. This includes the conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems shaping the conditions of daily life.
West Yorkshire Combined Authority Connectivity Infrastructure Plan January 2021	Our transport places will be designed for, and with, people, we will create spaces that are safe, easy to use and enjoyable. Objectives for connectivity : Enable access to further education and healthcare opportunities.

Policy Review	Social
West Yorkshire Combined Authority Mass Transit 2040 Vision – August 2022	People first Designed for people of all ages and abilities, and safe and secure for all. Reflect the region's diverse communities and cultures Inclusive safe spaces around stops
West Yorkshire Combined Authority Employment and Skills Framework	The Local Digital Skills Partnership (LDSP) was recently launched to work with key partners across all sectors to coordinate provision, tackle digital exclusion and maximise the potential of the region through supporting the growth of digital skills
West Yorkshire Combined Authority Bus Service Improvement Plan 2022	 Full accessibility is a fundamental aspect of the Combined Authority's vision for a safe and inclusive bus system. In West Yorkshire more than one in five working age residents are disabled or have a work-limiting disability, and this figure is significantly higher in people over state pension age. An improved local bus system will require consistent and high-quality accessibility support at every stage of a bus journey. Evidence shows certain groups, particularly women and girls as well as people of other protected characteristics, are more likely to feel nervous or unsafe while travelling on bus. This is in large part because of and compounded by wider, complex societal issues, but improvements to the local bus system can and should still play a role in overcoming these problems and supporting an increase to everyone's actual and perceived safety within the West Yorkshire region. The Combined Authority's successful bid to the Home Office for support from the Safety of Women at Night Fund, submitted in July 2021, focussed on transport interventions to support improvements to women's safety and its strategy has been incorporated into this BSIP (see section 4.2.35 for further information). The bid is included as Appendix C to this report. A specific call for evidence to improve safety for women and girls across the region was included as part of the Combined Authority's consultation on the West Yorkshire Police and Crime Plan 2021-2024 which concluded in November 2021. The Combined Authority will utilise the outcomes and continue to address any issues relevant to the local bus network, and transport provision generally. Passenger Charter We have developed a draft Passenger Charter which will be agreed with operators as part of our Enhanced Partnership. Key to this are customer guarantees including a 'no quibble' money back guarantee if unsatisfied with the service and commitment to paying for taxis if the last bus is cancelled.
West Yorkshire Combined Authority City Region Sustainable Transport Settlement	We will create greener, healthier, and better places through a programme of walkable neighbourhoods and school streets, reducing car traffic and enabling safer walking and cycling in Leeds and in communities across West Yorkshire, creating healthier streets and spaces. We will assess the impact of our mobility hub and EV charging demonstrators and enable wider roll out. This delivery will be integrated into our plans for delivering more walkable neighbourhoods and more vibrant, liveable local centres linked and supported by better and more integrated public, shared and active transport provision.

Policy Review	W	Social
West Yorkshire Authority Procu Strategy 2020 - 2	rement	 10% weighting for Social Value has been applied to all procurements > £75,000 as a minimum. Social Value is an umbrella term for the broader economic, social and environmental effects of any businesses' actions. They represent the conscious efforts made by organisations to affect positive change. These actions and changes contribute to the long-term wellbeing and resilience of individuals, communities, and society in general. The Combined Authority expects our suppliers and providers to support our aims and objectives, be supportive of the mayoral pledges and commitments to improving the communities we live in. We expect our contracted partners to work to ensure they embody best practices through reducing gender pay inequalities, through fair employment practices and in the adoption of sustainable, ethically sourced products, goods and services and in supporting their suppliers to do the same.
West Yorkshire Authority Climat Environment Ac	te and	Engagement with the natural environment is key to quality of life. Currently, around 23% of West Yorkshire residents have local natural greenspace within easy access of their homes (defined as within 5 to 10 minutes walking distance depending on walking speed). Within the region, there is a variation between districts: in Leeds and Calderdale the proportion is slightly higher, at around 26%; in Bradford it is 23%; but it falls to less than a fifth in Kirklees (18%). Tree planting will improve the health and wellbeing of residents, reduce flood risk, support wildlife and absorb carbon emissions.
Leeds City Regin Strategic Econo 2016-2036		 "To be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone". Environmental "To be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone". Clean Energy and Environmental Resilience: New energy generation Resource-efficient businesses Energy efficiency and empowering consumers Green infrastructure
Leeds City Regin Inclusive Growth Framework		 The widely recognised RSA definition of inclusive growth is applied throughout: Enabling as many people as possible to contribute to, and benefit from, economic growth. This definition of inclusive growth embeds the following key perspectives: of individuals that face barriers to securing good work, including those with protected characteristics (see below); and of our communities facing deprivation, inequality, and exclusion, as defined by either specific places, or groups through their shared interests, or collective identities A framework which directly shapes and influences national, regional, and local context and policies and funding programmes – covering e.g.: Industrial/economic policy such as a WY Economic Recovery Plan which supports the third sector, including social enterprise, to deliver an inclusive economic recovery. Ambitions for a Net Zero WY economy and related good work opportunities which will be created. Healthcare strategies and systems as drivers and enablers of an inclusive economy. Skills and employment policy providing our most excluded communities with relevant and transferable skills. Digital eg the LCR Digital Framework addressing digital exclusion as a barrier to accessing good work and skills.
Leeds City Regionant and Blue Infrast Plan		Our region's green and blue spaces and waterways are among its defining characteristics. This strategy and delivery plan sets out how we will make the most of the region's amazing natural assets to help our economy prosper, enable people to enjoy a great quality of life, and combat the effects of climate change.

West Yorkshire Combined Authority Corporate Plan 2022 - 2023	 1.Empowering our communities, towns and cities to thrive Enabling resilient, well-designed, healthy, accessible and connected communities with good quality homes, in places where people want to live. Enhancing the sustainable vitality of cities and towns, accelerating the delivery of flood risk management and protecting businesses. This year we will: Nork with partners to plan how we will continue to invest to achieve our 5,000 affordable sustainable homes target. Develop a West Yorkshire Housing Strategy. Strengthen our approach to equality, diversity and inclusion in this area, for example through the Dementia Ready Taskforce. Scenure funding to accelerate delivery of digital infrastructure such as broadband. Creating an accessible, clean and customer focussed transport system. Connecting communities, making it easier to get to work, do business and connect with each other. Reforming buses and creating a mass transit system to make the transport system easy to use so that sustainable travel becomes the natural choice. This year we will: Obliver our Bus Service Improvement Plan (ISDP) and progress bus reform to ensure communities are connected to opportunities and essential services. As part of BSIP, work in partnership with bus operators to create a simpler fare structure for West Yorkshire. Continue to develop our business case for a West Yorkshire mass transit system and form our new mass transit directorate. Make enhancements to the M Card app, roll out colour-coded network maps, and connect us nationally. Continue to deliver projects that benefit local communities through our Transport Fund and 'City Region Sustainable Transport Settlement'. Building a sustainable, nature-rich and carbon-neutral region Achieving net-zero carbon by 2038, promoting cilinate resilience and green recovery and ensuring that the transition to net-zero carbon is fair and equitab
West Yorkshire Combined Authority State of the Region 2022	The exceptional circumstances of 2020 saw a pronounced fall in greenhouse gas emissions in West Yorkshire, driven to a large extent by a fall in transport emissions, but this is not expected to be sustained. Shifts in mode share towards active travel and away from car use appear to have been accelerated by the pandemic. However overall West Yorkshire has a strong reliance on the car, and the ability of the public transport system to connect disadvantaged communities to opportunity has reduced. Creating an accessible, clean and customer-focused transport system A key purpose of an effective transport system is to connect people from all communities to employment opportunities. The pandemic has presented a major challenge to this aim. West Yorkshire's access inequality ratio worsened substantially during 2020, as the number of jobs accessible by the bus network from deprived neighbourhoods fell relative to those accessible by private car. This is attributable to a reduction in services as a result of the coronavirus pandemic, when only essential travel was supported; but it also illustrates the barriers to travel faced by certain groups.
West Yorkshire Combined Authority Investment Strategy 2021 - 2024	 Mission Four: A sustainable West Yorkshire – making lives greener. Mission Three: A well-connected West Yorkshire - a strong transport system Tackling the Climate Emergency The Mayor and Combined Authority have declared a climate emergency, recognising that increasing emissions, a depleted natural environment and more extreme weather events, to name but a few, are all having a detrimental impact on the businesses and residents of West Yorkshire. We need to ensure schemes do not contribute to the problem but are part of the solution. We have placed addressing the climate emergency, whether that is through reducing CO2 emissions, ensuring preparedness for the effects of a changing climate or ensuring resource efficiency, at the core of this Investment Strategy

West Yorkshire Combined Authority Connectivity Infrastructure Plan January 2021	 Low emissions, low carbon, inclusive future Tackle the climate emergency. Growing our economy while cutting emissions and improving our environment. There is an urgent need to reduce transport's greenhouse gas emissions. Transport contributes to poor air quality. We need cleaner air. Help combat climate change, provide climate resilient infrastructure and improve air quality by being low emission and providing an attractive and sustainable alternative to car travel. Environmental responsibility Zero-emission at the point of use. An attractive alternative to car travel. Infrastructure resilient to climate change. Landscaping to promote biodiversity, improve air quality and overall health. Sustainable management of surface water.
<u>West Yorkshire Combined</u> <u>Authority Mass Transit</u> 2040 Vision – August 2022	Climate change and decarbonising the economy. This will be a significant challenge. Climate change is a serious threat that requires significant, swift action in all sectors of the economy to mitigate the risks associated with a warming world. We've declared a climate emergency and set a target to achieve net-zero carbon by 2038, with significant progress to be made by 2030. Transport is our highest emitting sector, contributing 44% of total regional CO2 emissions. These emissions are predominantly from road transport, particularly private vehicles. With this Plan, we want to substantially accelerate the action and pace of decarbonising transport. Our Investment Priorities – Key Moves To deliver on our ambition we need substantial, long-term public investment in high-quality, sustainable transport infrastructure, accompanied by robust behaviour change programmes.
West Yorkshire Combined Authority Employment and Skills Framework	Driving innovation and productivity through high-level skills Our clean growth ambitions and adaptation of Al within workplace practices are likely to have a radical impact on the future workplace. New technologies and techniques will change the products, processes and supply chains involved in every aspect of the industry - businesses within our key towns and cities of Wakefield, Huddersfield and Bradford are particularly susceptible to the impact as the 4th industrial revolution evolves. Having declared a climate emergency, we are committed to becoming a net zero-carbon city region by 2038. We must address the challenge that our City Region's skills supply does not currently reflect the skills needed to meet these challenges until the deficit of higher-level skills/qualifications is tackled. Currently, around 33% of the labour force of West Yorkshire are qualified to level 4+ compared with the national average of 40% - this equates to 100,000 people in real terms. What more could be done? • Work with the West Yorkshire Green Skills Partnership. Net zero carbon Employers need skilled workers to deliver against immediate and longer-term challenges in meeting West Yorkshire's ambitious target to become a net zero carbon economy by 2038. What more could be done? • Stablish a West Yorkshire green skills development plan through the Green Skills Partnership. • Establish a West Yorkshire green skills development plan through the Green Skills Partnership. • Establish a West Yorkshire green skills development plan through the dreen Skills Partnership. • Stablish a West Yorkshire green skills providers to establish need and opportunity for behaviour change. • Strengthen collaboration and engagement between employers and training providers to improve and expand their training programmes. • Undertake skills audits with SMEs and skills providers to establish need and opportunity for behaviour change. • Explore opportunities for supply chains that are not necessarily in the 'green market' to share their green credentials

Policy Review	Environment
West Yorkshire Combined Authority Bus Service Improvement Plan 2022	Invest in decarbonisation We have committed to having a bus fleet with zero carbon emissions by 2036, with significant progress being made by 2030. This Bus Service Improvement Plan (BSIP) refers to the successful ZEBRA bid for 111 new zero-emission buses that will be deployed across the region by 2024. The plan also aims to renew our AccessBus fleet and achieve even more zero-emission buses in the future. This Bus Service Improvement Plan strongly aligns with the Combined Authority's efforts to tackle the climate emergency and protect our environment by reducing emissions. The Combined Authority declared a Climate Emergency in 2019, supported by the region's local authorities. The goal of West Yorkshire is to become a net zero-carbon economy by 2038, with significant progress by 2030. To achieve this target and comply with the Paris Agreement, emissions must be reduced by 14.5% year on year, with output levels being halved every five years. Transport is the largest carbon-emitting sector in West Yorkshire. The Carbon Emission Reduction Pathways study recommends building sustainable infrastructure, encouraging public transport usage, and embracing new technologies. For instance, the study recommends using electric and hydrogen buses instead of traditional diesel fleets. The plan foresees that by 2031, conventional petrol and diesel buses will no longer be sold. Up to 66% of buses across the region will be powered by electric battery, and up to 34% by hydrogen fuel cell. In addition to this ambition, the following will be delivered: •Stourton Park and Ride - a fully solar-powered site served by 5 zero-emission electric buses that take just 15 minutes to reach Leeds City Centre. It has 26 electric car charging points, secure cycle storage, and dedicated parking bays. East Leeds 'FlexiBus' - The East Leeds' FlexiBus' trial has 7 new, fully accessible, electric vehicles. •Zero Emission Bus Regional Area (ZEBRA) scheme – The ZEBRA scheme is a £56 million project that delivers 111 electric, zero-e
West Yorkshire Combined Authority Procurement Strategy 2020 - 2025	 10% weighting for Social Value has been applied to all procurements > £75,000 as a minimum. Social Value is an umbrella term for the broader economic, social and environmental effects of any business's actions. They represent the conscious efforts made by organisations to affect positive change. These actions and changes contribute to the long-term well-being and resilience of individuals, communities, and society in general. The Combined Authority expects our suppliers and providers to support our aims and objectives, be supportive of the mayoral pledges and commitments to improving the communities we live in. We expect our contracted partners to work to ensure they embody best practice through reducing gender pay inequalities, through fair employment practices and in the adoption of sustainable, ethically sourced products, goods and services and in supporting their suppliers to do the same.
West Yorkshire Combined Authority City Region Sustainable Transport Settlement	A modern, integrated transport system is essential for our economy to flourish and our communities to thrive. To fulfil its full potential, as both a major player in the Northern Powerhouse and in the levelling up of the UK economy, West Yorkshire needs to transform its transport system to one that is fit for the 21st century and for a decarbonised, fairer, more inclusive economy. Decarbonisation •Up to 12.5 million fewer car trips on our roads by 2038, through use of other transport modes or less need to travel. •Reduce CO ₂ emissions from car travel by up to 1.5% (up to 15,000 tonnes) per year by 2038, against a forecast increase in carbon emissions from transport. •Help to achieve our goals to upgrade the region's bus fleets – to reach 100% of all buses being EURO VI standard by 2026 and 100% of buses being zero emission by 2038. Our approach to EV charge points will be informed by the large-scale roll-out of this infrastructure in Kirklees as a regional demonstrator project Kirklees has the ambition to be a district where its residents' and businesses' first choice for their next vehicle is electric. We can only achieve this by having a leading network of charging infrastructure , to ensure that access is no longer a barrier. CRSTS will also build on the successful West Yorkshire bid to government's Zero Emission Bus Regional Areas fund (ZEBRA), and a smaller programme of works to deploy zero emission bus projects, will take the proportion of the bus fleet that is zero emission to around 15%, depending on the private sector investment leveraged, and will also assist in the installation of depot infrastructure and supporting civil engineering works. The programme will also provide investment into community transport vehicle renewal and upgrades to low carbon technologies.

Environment

West Yorkshire Combined Authority Climate and Environment Action Plan	 West Yorkshire has committed to becoming a net zero carbon economy by 2038. The latest data indicate that CO2 end-user emissions in West Yorkshire stand at around 10.8 Mt CO2. This equates to 4.7 tonnes per capita, slightly below the national average of 4.9 tonnes. Carbon dioxide emissions have fallen less quickly in West Yorkshire than nationally over the last decade for which we have data, but West Yorkshire's starting point was lower in per capita terms. A continuation of current rates of emission reduction in West Yorkshire will not be sufficient to achieve the target of net zero by 2038. It is projected that current policies will only achieve a fraction of the further reductions required to meet the net zero target. Emissions from the industry, commercial and domestic sectors of the regional economy fell substantially over the last decade, but transport emissions did not register a sustained reduction in the period to 2019. To achieve the emission reductions set out in the Pathway would require a significant acceleration of the deployment of technology and rapid behaviour change from consumers, industry, and business. Among other things the Pathway would require: a rapid uptake of electric vehicles, alongside significant consumer, and industry / business behaviour change; a large shift from private car use to cycling, walking and electrified public transport a wide-scale retrofit of buildings with ambitious rollout of heat pumps and heat networks; a significant upscaling of solar, onshore wind, smart and flexible energy solutions and potentially carbon capture and storage; development of new technology and switching to low carbon fuels within industry; and forestry planting to offset emissions from new urban development
Leeds City Region Strategic Economic Plan 2016-2036	"To be a globally recognised economy where good growth delivers high levels of prosperity, jobs and quality of life for everyone". Clean Energy and Environmental Resilience 1.New energy generation 2.Resource-efficient businesses 3.Energy efficiency and empowering consumers 4.Green infrastructure
Leeds City Region Green and Blue Infrastructure Plan	Our region's green and blue spaces and waterways are among its defining characteristics. This strategy and delivery plan sets out how we will make the most of the region's amazing natural assets to help our economy prosper, enable people to enjoy a great quality of life, and combat the effects of climate change. Our vision We want to ensure that everyone in Leeds City Region has easy access to a high-quality, safe and well-used network of footpaths, cycleways, green spaces, waterways and wildlife habitats. This "green and blue infrastructure" will contribute towards a strong economy, a sustainable environment and outstanding quality of life. It is also part of our ultimate goal of making Leeds City Region a zero carbon economy underpinned by high-quality green and blue infrastructure. Our priorities To achieve our ambitions we will focus on seven priority action areas: 1.Effective water management and flood risk reduction – developing natural flood management programmes and drainage solutions 2.Build green and blue infrastructure into physical development and housing – creating vibrant, healthy and inspiring places where people want to live, work and invest 3.Enhance green and blue corridors and networks – integrating green and blue infrastructure within the transport routes that link our towns, cities and rural areas 4.Improve community access to and enjoyment of green and blue infrastructure – building healthier, more environmentally sustainable communities 5.Plant and manage more trees and woodlands – improving air quality, reducing carbon emissions and creating a greener, even more attractive region 6.Restore the uplands and manage them sustainably – improving natural flood management, carbon storage and providing an agricultural system that works for the region

	Leeds Community Foundation https://www.leedscf.org.uk/about- us/	Leeds Community Foundation distributes vital grants and gives trusted advice to Community Organisations across Leeds and Bradford to influence positive change. We are driven by creating meaningful social impact for thousands of local people every year.
	Inclusive Growth Leeds https://www.inclusivegrowthleeds .com/productivity	Inclusive Growth Leeds is working to improve productivity in Leeds and enable businesses to innovate and grow. We are looking closely at how we can continue to build the profile of Leeds for the region and the UK.

Wakefield	Wakefield First Business Support https://www.wakefieldfirst.com/bu siness-growth/	Their Corporate Mission : To ensure economic growth and success in the Wakefield district. To ensure every business in Wakefield can have the opportunity to thrive and grow. Their Vision: To make the whole Wakefield district an attractive and supported environment for businesses of all kinds, sizes and sectors.
	Start Up West Yorkshire Start Up West Yorkshire	Fully funded support is available to those wanting to start a new business, or who have recently launched a new business. This includes a wide range of useful webinars and workshops, tailored to support individuals looking at a career in self-employment.
	Creative Wakefield About - Creative Wakefield	Creative Wakefield brings together arts, culture, heritage, creative and digital industries with other sectors - including business, community, health, education and planning.

Bradford	New Vision Bradford https://newvisionbradford.org.uk/ about-us/	New Vision Bradford is a partnership between national and local charities providing drug and alcohol treatment and recovery services across the Bradford District.
	The Bridge Bradford https://thebridgeproject.org.uk/ab out-us/	 Aiming to relieve sickness, poverty and promote social inclusion through the provision of treatment, care, rehabilitation, education and training services to persons or members of their families who: Have been, or are, or are in danger of becoming substance misusers. Have committed or are likely to commit crime. Have been, or are, or are in danger of experiencing mental health conditions. Have been, or are, or are in danger of becoming homeless. Have been, or are, or are in danger of experiencing marginalisation, discrimination or social exclusion.
	HALE Project https://haleproject.org.uk/	HALE is an award-winning health development charity, working with diverse communities with the highest health inequalities and/or low socio-economic incomes for almost 20 years. Their mission "To improve health where there is greatest need" is achieved by delivering a wide range of projects and services with individuals and communities, so that they may develop the confidence and skills needed to find and embrace solutions for themselves.

Calderdale	Healthy Minds Calderdale https://www.healthymindscalderd ale.co.uk/	The Community Health & Wellbeing team work across Calderdale offering support to households on their doorstep. Based on a Brazilian health care model, the project takes support to the heart of the community by connecting people to what is available in their own area and how they can access local support. Each worker in the team will be working with a designated number of households each - so they can create strong relationships with a small community of people.
	Calderdale In Recovery https://calderdaleinrecovery.com/	 The aims of Calderdale in Recovery shall be: To promote that recovery from addiction is possible to the people of Calderdale To improve the health and wellbeing of the people of Calderdale affected by addiction To develop support networks to help individuals maintain their recovery from addiction To develop community based opportunities to support recovery through volunteering, enterprise, participation and networking To reduce the stigma attached to those affected by addiction in Calderdale
	Early Action Hub https://earlyactionhub.com/	Early Action Hub is working in partnership with West Yorkshire Police and Calderdale Early Action Team. To inspire young people to make a difference to their lives and the lives of others, by offering a range of positive activities and volunteering opportunities.

Kirklees	Yorkshire Sport https://www.yorkshiresport.org/	Yorkshire Sport Foundation is a National Lottery funded charity, supporting organisations across the nine districts of South Yorkshire and West Yorkshire. Their vision is to create a vibrant, healthy and prosperous Yorkshire through everyone moving more. To do this they aim to connect, influence and support the work of local, regional and national organisations
	Kirklees Active Leisure https://kal.org.uk/	KAL's Vision is "improving health & wellbeing", reflecting the charity's new strategic direction and the focus upon health & wellbeing. To do this they aim to provide high quality services and facilities to all our customers. They are dedicated to increasing the number of people being active and improving their health & wellbeing, through responding to the needs of the local community and providing a dynamic and excellent value for money service.
	Kirklees Better Outcomes Partnership https://www.kirkleesbetteroutcom espartnership.org/	Kirklees Better Outcomes Partnership (KBOP) is an alliance of eight specialist organisations, collaborating to empower and enable individuals at risk of homelessness to achieve their potential and live independent and fulfilling lives.
Leeds	MindWell Leeds https://www.mindwell- leeds.org.uk/	MindWell is the mental health website for adults in Leeds. It's funded by the Leeds Office of West Yorkshire Integrated Care Board (ICB) to bring together information from the NHS, Leeds City Council and the third sector into one 'go to' place.
	Leeds Mind https://www.leedsmind.org.uk/	Leeds Mind promotes positive mental health and wellbeing, and provides help and support to anyone who needs it in and around Leeds. We offer many services, including: counselling, peer support, social prescribing, employment support, suicide bereavement support, creative wellbeing activities, mental health training and more.
	Leeds Crime Reduction	The Leeds Crime Reduction Network brings together organisations working to support both the victims and perpetrators of crime.
	Network https://touchstonesupport.org.uk/	Through their work we support creating safer communities by promoting action, good practice and innovation, discussing shared problems and finding shared solutions.
Wakefield	Young Lives https://www.younglives.net/resou rces/funding/	Young Lives Consortium is a membership organisation of Voluntary and Community Sector (VCS) groups working with children and young people aged 0-25 years across the Wakefield District. They work alongside a broad range of organisations which include charities, voluntary and community groups, uniform and faith groups providing play, youth services, sports services, and more.
	Street Support Wakefield District https://streetsupport.net/wakefiel d/	Connecting people and organisations locally, to tackle homelessness in the Wakefield District.
	Wakefield Families Together https://www.wakefieldfamiliestog ether.co.uk/youth-hubs/	Wakefield Families Together brings services together, to join up how we work, so that it's easier for you to find and access the support you need, at the earliest opportunity. They state that everyone needs help and support at some point in their life. So, when they do and find it hard to deal with a difficult situation, or have worries around young offending, family relationships, behaviour, school attendance, emotional and mental health, domestic abuse, parental conflict, housing issues, or employment and debt problems, Family Hubs can help direct to the right people and services

Environment

WYCA	Better Homes Yorkshire https://www.betterhomesyorkshir e.co.uk/about-us.html	Better Homes Yorkshire has been created to help residents across Yorkshire pay less for energy and live in healthier, warmer homes. Residents in the participating Local Authority areas will be able to take advantage of the latest Government funding options to make energy efficiency improvement works to their homes. *This organisation has been signposted due to issues of fuel poverty and need to address poor EPC ratings across WYCA.
Bradford	Scraptastic! https://www.scraptastic.org.uk/	Scraptastic aim is to promote and encourage the use of waste materials and resources for creative re-use and play. They collect clean waste from businesses, often destined for landfill, and sort it to stock our scrap section.
	Bradford Environmental Education Service (BEES) https://www.bees-ymca.org.uk/	To contribute to the sustainable regeneration of Bradford District, through effective environmental programmes, inspired by community needs. Programmes include: Community Urban Design Team, Habitat Heroes, Gardening for Health, Positive Approaches To Health, Adventurous Play Experience Scrap Magic!, Butterfly Soup/Forest Schools, Tackling the Roughs Food Co-ops, Wibsey Park Community Garden.
	Bradford Energy Network https://bradford.energy/	Bradford Energy Network is a planned Low-to-Zero Carbon (LZC) district heating network being developed for the city centre, allowing businesses and organisations which connect to the BEN to decarbonise their heating, along with delivering a number of other benefits for the city.
Calderdale	Green Calderdale www.greencalderdale.org.uk/	Green Calderdale is produced jointly by Calderdale Sustainability Forum and Calderdale Friends of the Earth. Their aim is to provide a single space for a wide range of environmental and sustainability activities, which previously did not exist; a resource for those organisations or environmental causes without their own sites; and to connect together people and opportunities.
	Sustrans https://www.sustrans.org.uk/	A national sustainable transport charity working on practical projects to encourage people to walk, cycle and use public transport. Their aim is to reduce the adverse effects of motor traffic and have been signposted by Calderdale Council.
	Calderdale Friends of the Earth www.groups.friendsoftheearth.uk /calderdale	Calderdale Friends of the Earth is part of a movement to create a safer climate, flourishing nature, and healthy air, food and water. The Calderdale FOE local group has been around for some 30 years, working on FOE's national campaigns and adding locally important ones as well. Friends of the Earth believes Calderdale should be more ambitious and strive to reduce its reliance on fossil fuels by generating 396.7 GWh per year.

Environment

Kirklees	Carbon Copy carboncopy.eco/initiatives/	Providing positive health and psychological wellbeing opportunities for a wide variety of people of mixed cycling abilities within businesses and communities in Kirklees.
	EPIKs Kirklees www.environmentkirklees.org/	EPIKS volunteers and partners work with local communities and residents, businesses, institutions like the university and employees to increase environmental awareness - and through its projects - to make towns and villages a better place to live, work and study. Environment Kirklees has made a start in setting up the waste and resources network in Kirklees.
	Natural Kirklees naturalkirklees.org	Natural Kirklees is the umbrella organisation for all the "Friends of" groups and "Greenspace" management groups within the Kirklees geographical area. Under their roof, more than 100 voluntary groups are working hard to preserve local green spaces and establish environmental projects across Kirklees. They offer free membership for green space volunteer groups and assist them in various ways, from advice to providing them with public liability insurance cover.
Leeds	Leeds Climate Commission About Leeds Climate Commission Leeds Can-do Cities	The Leeds Climate Commission was established in 2017 and was the very first climate commission, providing a blueprint for the growing number of other climate commissions that have developed since. It was inspired and informed by the work of the UK's Climate Change Committee and is an independent voice in the city, providing authoritative advice on steps towards a low carbon, climate resilient future so as to inform policies and shape the actions of local organisations and stakeholders. It monitors progress towards meeting the city's carbon reduction targets, celebrates success stories and recommends actions to keep the city on track.
	Climate Action Leeds Climate Action Leeds	Climate Action Leeds provides a platform for people, organisations and communities to come together to take action on climate change, in Leeds and beyond. Their collective purpose is to help shape a Leeds which is zero carbon, nature friendly and socially just by the 2030s. Their approach is focused on mobilising communities, campaign groups and sectors to plan and act together. Over 40 groups in Leeds contributed to planning the project, and it is supported by many more.
	REAP Leeds https://www.reap- leeds.org.uk/transport.htm	REAP members have interested in themselves in all forms of transport – particularly walking, buses and cycling. Our aim is to reduce everyone's local carbon footprint by encouraging walking and cycling as well as greater use of public transport.
Wakefield	Keep Wakefield Warm	The Keep Wakefield Warm this Winter campaign raises funds to provide Emergency Winter Fuel Grants to people in need.
	Fuel Poverty • Community Foundation Wakefield District • Charity Donations and Grants (wakefieldcf.org.uk)	Despite running our fuel poverty campaign for many years, the issue has never been more pertinent than these last few years, with a cost-of-living crisis and escalating energy prices. The funds raised are distributed amongst lower income families and individuals from the Wakefield District who struggle with their outgoings and need an emergency grant during the challenging winter months
	Just Transition Wakefield Transport – Just Transition Wakefield	Just Transition Wakefield was created by Wakefield and District Trades Council and Wakefield Friends of the Earth, as a network or alliance of groups, organisations and individuals to campaign for a zero carbon Wakefield as part of a zero carbon UK. As a Climate Action Group our efforts aim to: • Cut climate emissions, like carbon dioxide and methane. • Increase carbon sinks, like woodland and wetland areas. • Enhance biodiversity and nature. • Raise the ability of people and communities across the district to adapt and be resilient in the face of climate change.
		Boost the creation of thousands of good green jobs.
	Wakefield College Climate Action Group www.wakefield.ac.uk/sustainabilit Y	Wakefield College state that their students play a big part in their sustainability initiatives. They invote organisations to join our Climate Action Group and get involved in activities across College to raise awareness, take positive action and create and join our campaigns and activities which will make a real difference. They state: Making changes as an individual whenever possible can also helps support our planet.

Appendix 3

Definitions & Sources

Abbreviations

Abbreviation Definition

ΝΤ	National TOM (Theme, Outcome, Measure). This reference is used as a shorthand way to refer to measures within the TOM System.
EA Core	The Equality Act 2010 ("EA") is the core piece of anti-discrimination legislation in the United Kingdom. EA core or work-limiting disabled refers to disability as defined within The Equality Act 2010.
GCSE	A qualification in a specific subject typically taken by school students aged 14–16, at a level below A level.
NVQ	National Vocational Qualifications are practical work-based awards in England, Wales, and Northern Ireland that are achieved through assessment and training.
CDRC	Consumer Data Research
BPS	British Population Survey
STEM	Science, Technology, Engineering, Mathematics
CC	County Council
NEET	Not in Education, Employment or Training
LSOA	Lower Super Output Area, as per the IMD

Internet User Classification

Internet User Classification	Definition
e-Cultural Creators	High levels of Internet engagement, particularly regarding social networks, communication, streaming and gaming,-but relatively low levels of online shopping, besides groceries.
e-Professionals	High levels of Internet engagement, and comprises fairly young populations of urban professionals, typically aged between 25 and 34. They are experienced users and engage with the Internet daily and in a variety of settings.
e-Veterans	Affluent families, usually located within low-density suburbs, with populations of mainly middle-aged and highly qualified professionals. Higher levels of engagement for information seeking, online services and shopping, less for social networks or gaming.
Youthful Urban Fringe	Reside at the edge of city centres and deprived inner-city areas, ethnically diverse, young, large student and informal household populations, access via mobile devices. High levels of Internet engagement are average over-all, with high levels of social media usage.
e-Rational Utilitarians	Comprising mainly rural/semi-rural areas with higher than average retired populations, constrained by poor infrastructure. Users undertake online shopping; the Internet is used as a utility rather than a conduit for entertainment.
e-Mainstream	Exhibit typical Internet user characteristics in heterogeneous neighbourhoods at the periphery of urban areas or in transitional neighbourhoods.
Passive and Uncommitted Users	Limited or no interaction with the Internet. They tend to reside outside city centres and close to the suburbs or semi-rural areas. Higher levels of employment in semi-skilled and blue-collar occupations.
Digital Seniors	Typically, White British, retired and relatively affluent. Average use of the Internet, typically using a personal computer at home. Despite being infrequent users, they are adept enough to use the Internet for information seeking, financial services and online shopping.
Settled offline Communities	Elderly, White British, in semi-rural areas. They undertake only limited engagement with the Internet, they may have only rare access or indeed no access to it at all.
e-Withdrawn	Least engaged with the Internet. Deprived neighbourhoods of urban regions. Highest rate of unemployment and social housing among all. Lowest rates of engagement in terms of information seeking and financial services, as well as the lowest rate in terms of online access via a mobile device.
